BUBJECT: Report to the President's Board of Consultants on Foreign Intelligence Activities, Period 1 October 1960 through 31 March 1961

- (3) The Supply Division, in the course of the Purification of Assets Program, generated the disposal of surplus, obsolete, or unserviceable-uneconomically repairable items of property with an inventory value of \$899,546 during the first nine months of FY 1961. In addition, a Utilization and Standardization Program was initiated in November 1960. Under this program, 1260 line items have been examined resulting in the declaration of 553 as standard and 707 as nonstandard items. Nonstandard items will be published in forthcoming excess lists or removed from the stock system through forced issue.
- (4) As of 31 March 1961, all overseas stations and bases have implemented Type II Financial Property Accounting procedures.
- struction of the aerial delivery packs for the program have been revised from a heavy to a lightweight type. The lightweight pack, weighing from 80 to 100 pounds, affords better "carry-away" capabilities and provides for more versatile air delivery.

## c. Real Estate and Construction

- (1) New Agency Headquarters Building
- (a) Since the last report, the superstructure contractor has completed an additional 24% of the building. This brings

the building to a status of 70% complete as of 31 March 1961. The contractor has been delayed somewhat because of weather conditions, but occupancy of the north half of the building, beginning in August 1961, should not be effected appreciably.

- (b) During the period of this report, twelve information and contract drawings were produced, involving partition revisions and standards, medical, X-ray, and projection equipment and instantaneous generator for the Signal Center. All plans for furniture layout were retemplated from standard to unitized furniture. Telephone service orders and wiring diagrams were completed for 90% of the north half of the building. Special requirements for power were reviewed and engineered service fitting locations for 7% of the north half of the building were sent to the Public Buildings Service, Construction Engineer.
- (2) At the completion of this period, 69 projects (each at least over \$2,000) totaling were in the following 25X1 stages:

  (a) Completed Construction: 14

  (b) Under Construction: 16

(2) The project of color badging of Agency personnel prior to the move to the new Headquarters building is nearing completion.

Contact has been initiated by members of the White House Staff seeking support in a similar color badging project of all White House employees. It has been determined that the required support could be furnished and further action swaits word from the White House Staff.

## g. Logistics Planning

(1) The Office of Logistics was able to support cold war contingency operations because of its programmed procurement, rehabilitation, and packaging of paramilitary material.

25X1

(3) The Agency increased from 44 to 49 the number of Agency peculiar items offered to the Army for post D-Day use. Negotiations are under way to cut reaction time for release of these items in an emergency.
